

Congratulations

54,379 tons diverted from the landfill

The residential recycling efforts of Hamilton County are equivalent to the following:

Diverting 863,158 yds³—
enough to fill Great American
Ballpark over **15 times!**

Saving **291,635 trees** from
being harvested.

Conserving enough energy to
power every home in Hamilton
County for **314 days.**

Your Impact

In 2025, Hamilton County communities collectively **diverted 54,379 tons** of material from the landfill — Terrace Park alone contributed by diverting an average of 974.63 pounds of material per household.

Hamilton County ReSource thanks you for your commitment to **protecting** natural resources, **conserving** energy, and **reducing** pollution.
